DETAILED ACTION

Response to Remarks

The amendment received, 17 October 2005, is acknowledged.

Drawings

The drawings were received on 17 October 2005. These drawings satisfy requirements formalized in office action of 15 July 2005, and objection to the drawings is withdrawn.

Claim Rejections - 35 USC § 112

Rejections of claims 1-4 and 6-8 are withdrawn because the amendment received, 17 October 2005, in combination with an examiner's amendment (below), satisfies requirements cited in office action of 15 July 2005.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. McKinley on November 2nd, 2005.

The application has been amended as follows:

1. Term "small" and "thin" deleted in: claim 1, lines 9 (small), 11 (thin), 12 (thin and small), 13 (small), and 14 (thin); and claim 2, line 2 (thin).
2. Typo correction: Claim 2, line 2, insert the word --said—after the term "wherein".

Response to Remarks

Applicants' arguments on page 6, filed on 17 October 2005, are persuasive with respect to the fact that U.S. Patent No. 6,864,172 to Noma et al. does not constitute prior art.

Allowable Subject Matter

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or suggest: step (d) forming a metal film on said first insulating layer; step (e) removing a portion of said first insulating layer between said metal film and small hole in order to expose said metal film to said hole, in conjunction with all other limitations in the claims. The closest prior art, U.S. Patent 6,239,495 to Sakui et al., does not disclose steps (d) and (e).

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
